CHILD ADOPTED BY MRS. TYSON LOST PARENTS IN INFANCY

CHRISTENED FOR BOY IN QUININE POEM

Stotesbury Kin Reveals She Gave Baby His Name on Her 21st Birthday

THREE Farms, Oct. 11.—Both parents of the baby boy adopted by Mrs. John L. Tyson, wealthy young Philadelphia society matron, are dead, she revealed today.

Mrs. Tyson was formerly Miss Natalie Evelyn Hutchinson, a granddaughter of E. T. Stotesbury, millionaire banker.

Although she is only 21 years old and has been married less than two years, Mrs. Tyson's yearning caused her to adopt the week-old infant six months ago, according to her statement. She declines to explain the would-be on the baby's identity, however.

"I don't want to say where I got him, but he came from an institution when he was only a week old and his parents are dead," she said.

GAVE RECEPTION. According to Mrs. Tyson, she gave a reception on September 21st, her birthday anniversary, at Sydney, her home in the Tyson summer home for the child. He was christened by Rev. M. P. Carey.

In explaining how she happened to name him, Mrs. Tyson said: "I named him Christopher Robin, the little boy in A. A. Milne's poem, 'Buckingham Palace,' and Gilbert after my grandfather, Gilbert Nolan, son of the nation of honor at her wedding."

"Christopher's christening gown was made by mine in a Belgian convent and was copied after that worn by the Spanish Infanta."

CARED FOR BY NURSE. Mrs. Tyson says the baby has been cared for by a nurse, she declined to tell where he is at present.

The godmothers at the christening were Mrs. Stephen E. Hutchinson, Mrs. Tyson's mother and Mrs. Hallowell C. Morgan. Her godfathers were Edward Stotesbury Hutchinson and C. Tyson Smith of New York.

Mrs. Tyson's wedding in November, 1927, was one of the best social events of the season. Before marriage she was interested in art and dancing.

Name Tyson Baby Christopher for Hero in Poem

Mrs. John L. Tyson, wealthy young society matron of Philadelphia and Beverly Farms, says she named her adopted baby boy "Christopher" after Christopher Robin, the little boy in A. A. Milne's poem "Buckingham Palace." The infant's second name, "Gilbert," she chose after Gilbert Nolan, 15, son of the matron of honor at her wedding.

The poem from which the baby's first name is taken follows:

BUCKINGHAM PALACE. They're changing guard at Buckingham Palace—Christopher Robin went down with Alice.

Alice is merrily one of the guard. "A soldier's life is terrible hard," says Alice.

Alice looked out, but it wasn't the King. "He's back on his busy designing things," says Alice.

RESCUE PLANES AWAIT ICE

Winnipeg, Oct. 14 (AP)—Plans of rescue planes today to wait for the winter freeze, expected within a week, before making the search in the Hudson Bay region for eight prospectors, missing with two planes for six weeks.

Thin ice, which now covers the lake, has made landing with portable equipment planes dangerous and the ice is not yet heavy enough to bear planes fitted with skis, the army explained.

Five planes, commanded by Capt. G. S. Blanchet, are at Lake Lake and five others are in readiness at stations along the edge of the Arctic wilderness to cover the region where the prospecting party is believed to be dead.

GIANT BRITISH DIRIGIBLE R-101 IN TEST

Cardington, Eng., Oct. 14 (AP)—The giant British dirigible R-101, largest airship in the world, left its mooring mast at 11:19 a. m. for its first flight. It carried a crew of 28 and 11 passengers.

Great crowds cheered as the airship, carried, commanded by Maj. G. H. Dyer, the first man to cross the Atlantic in a lighter-than-air machine. Guests included Sir John Huggins, representing the English air council. Her function was to be served aboard.

"My instructions are to fly in a circle and test the ship in every possible way," Maj. Dyer said. "The probability is that our machine will be about 30 miles. We shall go no higher than 2000 feet."

Grand Duke Alexander Michaelovich is being closely guarded by Boston policemen today as a result of telephone threat against his life.

RESCUE PLANES AWAIT ICE
Winnipeg, Oct. 14 (AP)—Plans of rescue planes today to wait for the winter freeze, expected within a week, before making the search in the Hudson Bay region for eight prospectors, missing with two planes for six weeks.

Thin ice, which now covers the lake, has made landing with portable equipment planes dangerous and the ice is not yet heavy enough to bear planes fitted with skis, the army explained.

Five planes, commanded by Capt. G. S. Blanchet, are at Lake Lake and five others are in readiness at stations along the edge of the Arctic wilderness to cover the region where the prospecting party is believed to be dead.

Army Reserve Airman Wins Test Trophy

Washington, Oct. 14 (AP)—Lieut. Harry A. Sutton of the army air corps reserve today was awarded the Clarence H. Mackay trophy by Secretary Good for the most successful flight service by an army pilot in 1928.

Sutton, who recently resigned from the army, was awarded the trophy for conducting flying tests to determine the spinning characteristics of several dangerous types of airplanes.

Secretary Good said Sutton had obtained valuable scientific data and that his "quiet bravery, intelligence, skill and spirit" merited the highest praise.

Sutton, a native of Geneva, Neb., now lives in New York.

Unnecessary Pain!
Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works! And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuritis, sciatica, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but you can always turn to Bayer Aspirin for relief.

Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

BAYER ASPIRIN
Aspirin is the trade mark of Bayer Manufacturers of Monrovia, Germany, of Germany.

Fruits to Be Sold in Standard Containers

After the end of this month, the buying public of Boston and elsewhere will find its apples, peaches, grapes and other fruits or vegetables in new-sized containers of a great variety of shapes.

The United States government will on November 1 begin drastic enforcement of the 1928 "container" law. This regulation will eliminate many of the common size baskets such as the two-quart, the 14-quart, the 14-quart and the 28-quart sizes.

The law was passed to establish uniformity for shippers, buyers and consumers.

LEONARD LIVES BIG CROWD AT AIR MEET

By GEORGE W. HAMBLIN

The thousand spectators at the Worcester air meet, held at Whitall field, were thrilled when Little Leonard performed the first outside loop ever seen in Worcester.

Leonard's stunt exhibition was the feature of the two-day aerial pageant, and his widow, the daughter outside loop, was greeted with cheers.

The affair, under the direction of Captain P. Banks, chief of the National Air Pageant Association, was marked with the most spectacular thing ever seen at an air meet in New England. Leonard easily outstripped everyone else when it came to throwing an airplane inside out, but the rest of the boys, Charles Arnold of New London, Ross G. Owen of Pittsfield, Jimmie Whitall, Ray C. Van Arsdale of Boston, and "Tiger" Wright, the parachute jumper, continued their best efforts, and Banks declared that it was the most successful meet he has ever seen.

A child was brought up from a Worcester Motonette club to school at South Weymouth, and was given several times by Charles Ingels and Lieut. A. W. Barnaby. Wind conditions did not permit the glider boys to take off on a single boring loop, as the ship was launched from the ramp. The soaring plane was kept busy all afternoon, and the crowd got a big kick out of the flights.

AIR PARADE OVER CITY

A parade over the city, in which the Ford triplane owned by Curtis, and flown by Ralph Wickford, was leading, and all the other ships on the field, started the day's activities, and Jimmie Whitall and Charles Landis, the field manager, kept things humming from then on. It was estimated that seven hundred passengers were taken up for joy rides, setting a record.

Stunt came a race between Charles Arnold and Ross Owen in their Ford Standards. Jimmie Whitall in his Waco and Gus Ham in the V-13 monoplane. The race featured around the course, which was three laps of five miles each, and when the time finished their calculations, it was found that Whitall won the race.

Jimmie Whitall then decided to do how high he could go in his Waco, and took a thermometer along with him. He reached 10,000 feet, and flew into a cloud at 8,000 on the way up. The air was so cold that he formed on his wings, and he dropped several hundred feet before he reached the ground. He then went up to his landing, and freed freezing temperatures.

LOOP THRILLS CROWD

Little Leonard was next, and he executed around the field, flying on his loops, upside down, and every way you can imagine. For a half hour the merry little chief pilot of the Alliance Aircraft Corp. then around, leaving the crowd on edge with his daring maneuvers.

Then he landed and, after a consultation with Banks and Landis, went up to 4,000 feet. He was up there to perform an outside loop, and the crowd held its breath as he pushed the nose straight down, and then started the airplane right job of pushing the airplane around and up, with him on the outside of the turn, instead of inside.

The 125 horsepower, Hiss-Waco engine turned up to 2,700 revolutions and the roar coming from it could be heard for miles. Leonard finally came right side up, and was about 2,000 feet in the air when the stunt was over. The crowd went wild when the diminutive pilot landed, and the applause was continuous.

FINE ILLEGAL BUSINESS GOOD, DEER HUNTERS U. S. REPORTS

Winfield, Oct. 14 (AP)—Pounding guilty in charges of spotlighting deer, Allen Cross and Remington E. Moore of North Andover, and George Coleman of Springfield, paid fines totaling \$300 in district today. Charges of hunting out of season were not penalized.

The men are said to have turned the headlights of an automobile into the woods in Hanford to attract the deer, which then were shot. Deputy Game Warden P. Monahan is waiting a grand jury action against this practice, and testified a group of men, according to information that had reached him, had killed seven deer in a single night by this method.

PANTAGES SET TO FACE GRILL IN GIRL CASE

Los Angeles, Oct. 14 (AP)—The end of the State case against Alexander Pantages, multi-millionaire theater man charged with abducting a girl, is today with an appointment that the prosecution testimony possibly would be completed by adjournment tonight.

Defense attorneys indicated that Pantages would take the stand and after a complete denial of Miss Pringle's story of what happened in a conference room adjoining the theater man's private office on the day of the alleged abduction. Three physicians who examined Miss Pringle after she fled from the conference room are to testify today.

Julia Pringle, former school teacher, employed by Pantages, was with at the disposal of defense attorneys for further cross-examination. Mrs. Pringle, after she had testified, had coached her to tell what story she wished to tell. While the prosecution expects to end its case in short order, the district attorney indicated that several witnesses are being reserved by the State for rebuttal.

Defense Attorney W. J. Gifford has announced that about 21 witnesses will be called in support of Pantages. Lawyers on both sides declared the case cannot possibly go to the jury of six men and six women for another ten days or two weeks.

UMPIRE KILLS HECKLER

Spaulding, Oct. 14 (AP)—Persistent heckling of an umpire's decisions in a game for the baseball championship of Paulding County, Georgia, today, resulted in the death of a man.

Umpire Clyde Crane, 45, killed Straley with a blow to the face in their third encounter of the afternoon. A doctor pronounced the victim dead. Crane was held, pending an inquest.

Witnesses said Straley, who was standing behind the base where Crane was working, was pulled apart by spectators. In the last half of the eighth, the umpire suddenly whirled on Straley and struck the blow that knocked him to the ground dead.

SAYS PARITY IS ROAD TO PEACE

Terre Haute, Ind. 14 (AP)—His first address as national president of the American Legion, O. E. Bollerbaum told the convention today that the road to peace lay through parity brought about by full consideration of citizens and not by a policy of armaments.

He closed his talk with a reference to the new friendship and understanding of Ramsey MacDonald and spoke of the "splendid results" of the conference held in the British prime minister and President Hoover.

The Legion, he said, "will continue to advocate a program of disarmament until the five major powers shall have left the conference table with their signatures affixed to the joint agreement of the President and prime minister, which marks a happy day for the world."

Clothes Take Fire, Boy Dies of Burns

Anthony, Oct. 14 (AP)—Harry Hamilton, Jr., 11-year-old son of Mr. and Mrs. Harry Hamilton, 14 Allen ave., died of burns sustained when his clothing became ignited while he was playing in the attic of a neighbor's house.

The youngster, with the two children of Mrs. Gertrude Gertrude, was rummaging about in the attic and found some candle which he lighted. Mrs. Gertrude ran to the upper room a short time later, when she heard the screams of the Hamilton boy, who was aflame.

MRS. NORTON RAPPS TARIFF MEASURE

New York, Oct. 14 (AP)—Mrs. Mary Norton, representative in Congress from New Jersey, today held a luncheon conference here of the Women's Non-Partisan Taxif committee that the proposed Smoot-Hawley tariff bill now before Congress "will increase the cost of living in an enormous degree."

"The fair tax is imposed on all who take the tariff producing the American woman," she said, "and people are awakening to the fact that the tariff is a tax on the extra season of the year was supposed to help the farmer, while giving him ten cents (about twenty cents from him, in all) as the workingman, and workingman the victim under this outrageous tariff bill."

While a protective tariff may be necessary to protect the farmer, the man of the country, an exorbitant tariff bill to do this, she said, is not the beneficiary, nor is it thought of by the farmer. The Smoot-Hawley tariff bill, which the American family is asked to contribute ten per cent on the cost of life, she said, was a certain requirement of other nations, and it is difficult to understand why they require more protection.

PERJURY PROBE HALTS TRIALS

Providence, Oct. 14 (AP)—Two liquor law cases were ordered held up in Federal Court here today by Judge Letts to permit the district attorney's office and the Federal Grand Jury to determine whether a former dry agent had committed perjury in making affidavits to secure search warrants in these and two other cases.

Obvious lack of probative value in swearing that affidavits were sworn to by Judge Letts, who directed one defendant to withdraw a plea of guilty to a possession charge when defense counsel admitted that the man had possessed a small quantity of liquor in his own home.

The defendant, George Lewis of 1200 Washington St., Newport, had denied to his counsel that he ever sold liquor or beer to Eugene Purcell of Fall River, Mass., the former prohibition man, said to have obtained the warrant in the case.

HOT CONTESTS IN 5 CITIES

The contest for the nomination of mayor in Somerville is the outstanding feature of city primaries which are to be held in this city, Cambridge, Lynn, Waltham, Worcester and Springfield tomorrow.

There are eight candidates for the office in Somerville, five seeking the Republican nomination and three Democratic. The Republican candidates are Senator Warren C. Roberts, Alderman Robert C. Harris, Alderman William R. Howe, Alderman Kenneth H. Roberts and Alderman David V. Ross. The Democratic candidates are Arthur D. Hall, Robert W. Houlley and John J. Murphy.

In Lynn there are six candidates for mayor. Ex-Mayor Harland A. Nichols is one of the candidates, having held the office once before. Other four candidates are Lynn M. Hanger, president of the city council; J. Fred Manning, for many years an assessor; John W. Papper, former alderman and commissioner of health; William E. Sullivan, a local brewer and executive man; and George H. Jackson, former state senator.

In Cambridge mayoralty candidates are: Mayor Edward W. Quinn, who is seeking re-election for the seventh term; former Councilman Richard M. Butler, son of the late Governor William E. Butler; and ex-Mayor J. Edward Barry. In Waltham chief interest centers in the struggle for nomination as mayor. The three candidates are Henry P. Neal, present incumbent; Ex-Mayor D. J. Dwyer and Councilman Martin F. Carney. Under the present form of charter if there are more than two candidates for mayor a preliminary election is held and the two men receiving the bulk of totals in the primary fight it to the candidates. At the election.

One of the things which is causing quite as much interest as the choice for a candidate for mayor is the referendum on the proposed site for the new high school.

CULT BURIAL PLACE SOUGHT

Los Angeles, Oct. 11. Investigation into efforts to find the burial place of the Divine Child of the Holy Arm of the Great Eleven, religious cult, whose members' activities are under investigation here, have taken up new trails.

Police said a telephone call from a woman whose identity they declined to divulge sent them on a new search to a purported cult cemetery. Three members of the religious organization have been reported missing and three others died under circumstances city and county officers regarded as mysterious.

A complete coroner's report on the cause of the death of Willis Rhoads, a young cult disciple whose body was kept for more than a year before it was buried, is expected today.

Syracuse Flight Is Again Failure

Syracuse, N. Y., Oct. 14. A brief report ended the second attempt to bring the endurance flight record to this city when the Syracuse flares were forced down after 177 hours and 17 minutes in the air. The ship was landed safely in a field several miles north of Syracuse, and both flares, Joe McKinley and Aaron Krans, were unhurt.

Shoots at 'Ghost' Who Doesn't Say 'Swish'

Merino City, Oct. 11 (AP)—A first class working knowledge of the habits of ghosts sometimes comes in handy.

"Two-o, who-o-o-o, wood, wood," croaked Sylvester Egan, who surprised by a watchman while making off with a headstone in the Dolores cemetery at Fort Huachuca.

The watchman, unimpressed, shot. Egan dropped the stone and discarded a sheet he wore over his head.

He was not alone. A second watchman, who was also a first class working knowledge of the habits of ghosts sometimes comes in handy.

Vassar Girl to Turn Socialist

New York, Oct. 14.—Six weeks ago a working girl had made a Socialist of Miss Charlotte Tuttle, 18, Vassar junior and daughter of Charles H. Tuttle, Conservative Republican federal attorney for the New York district.

Miss Tuttle intends, she said, to enroll in the Socialist party as an active worker when she is 21.

The conversion to Socialism of Miss Tuttle came about after she and other girls investigated at first hand, in Chicago, the life led by factory workers.

Patrolman Alfred Arnesen, who was on duty at the time, was surprised to find that the girls were not only well educated but also very intelligent.

Each of these four groups of people has a different view of the world and of the place of man in it. The first group, the "naturalists," believe that the world is a machine, and that man is a part of it. The second group, the "idealists," believe that the world is a dream, and that man is a part of it. The third group, the "realists," believe that the world is a struggle, and that man is a part of it. The fourth group, the "humanists," believe that the world is a mystery, and that man is a part of it.

Industrial Get-Togethers
Around Under Hoover
Administration

By B. C. Forbes

NEW YORK, Oct. 11. A revolution is going on abroad which the public know little. Yet the pocket of every person and every family in the land will be affected by it.

R. C. Forth size and shape and color of their products. He exposed the folly of available duplication of effort.

More. At such gatherings, and other gatherings, harmful trade practices were sometimes discussed. The existence of certain competitive methods were noted. Men engaged in the same line of industry or business had opportunities to discuss their trade and solve mutual problems in a friendly way.

American industry and American business became thoroughly convinced of the value of these Hours of Inspired Activities.

Secretary Hoover strongly encouraged various groups to take a step further to carry out the basic idea of co-operation. One industry would join with another to form a trade association. Leaders in one industry would act together quietly and seek to arrive at an agreement covering trade ethics.

The unexplained advance in stock prices has been a factor in the success attainable in the effecting of "understandings" among lenders.

Each method of procedure has not always been the same. While one or two in other limited number of small concerns have been the beneficiaries of the effecting of their price-cutting or other unconventional practices, the solution has sometimes been to persuade them to have been bought out. Hence, the popularity of mergers. Doubtless, there have been occasions when the method of the "understanding" has been adopted.

"Never has the Government gone so far as during the past year in its encouragement, support and assistance to the self-help movement of business and trade groups. With the Federal Trade Commission now holding trade conferences to discuss self-help, and another, and the rapid development that is now taking place in the law relating to trade associations, the Government is adopting new methods of business self-government are fast raising American business to new levels of efficiency and of almost mass satisfaction of industry.

adequate safeguards are furnished under proper conditions and with the shadowed by recent decisions and rulings of the Supreme Court. The Department of Justice and the Federal Trade Commission.

Trade associations and institutions, they prefer the first route in the manner now approved by the law, can confer upon mankind a benefaction comparable only to that which has been effected by the control of disease by modern hygiene."

That sounds grand, but the public will be very much from Missouri concerning the real motives for all these get-togethers. Walter Dill Scott is the author of the

plants, especially those, and in the case of the latter, the power generated is sold to the grid. The plant is designed to operate in a flexible manner in order to providing both peak and base load power.

Hydro and steam plants have been the traditional power sources of the industrialized countries. The hydro plants are the most efficient and the most reliable, and they are the least expensive to build. However, the hydro plants are the most expensive to build, and the most expensive to operate. tion of water wheels and turbines, which were enlarged by 86,000 HP, or an increase of 74 per cent. The power of steam generators was five times as much in 1927 as in 1922, showing a growth of nearly 500 per cent. The total amount of electricity generated in Maine was 278,660,000 KWH, which increased in 1927 to 566,000,000 KWH, or an increase of 103 per cent. The number of customers practically doubled from 92,733 to 184,922.

Consequently, the number of companies grew from 117 in 1922 to 123 in 1927, and the number of power houses from 7 in 1922 to 30 in 1927. The percentage of electricity produced by the State Electric Power Board fell from 47.1 per cent. Practically

The total generation within the system increased from 1,932,000 KWH in 1922 to 2,245,000 KWH in 1927, a growth of 16 per cent. Still greater growth was shown in the number of customers, which increased 77.1 per cent during the five-year period, the total at the end of 1927 being 1,979,407 against 677,562 at the close of 1922.

NEW YORK, Oct. 14 (AP)—Cotton opened steadily today at a decline of 1 to 7 points after a cumulative rise of 10 to 15 points in the previous week-end and some continued house liquidation.

Prices were not particularly heavy and were absorbed by trading and covering on the decline which carried prices into new lows. Demand was sufficient to steady the market around 18.25 for December and 18.74 for March in the market for points above the previous close.

Lovegood cables reported continental and Bombay buying in the market for points above the previous close.

Canada's Building Sets High Record

Montreal, Oct. 11—The value of construction contracts awarded in Canada in September was higher than for any previous September on record. The total for the first three quarters of the year reached \$1,240,000,000, or 124,000,000% higher than for the same months of 1925, states a report of the Canadian National Railways annual report.

The engineering classification is creeping up on the business building class, which, with housing, is the largest for the year to date. The nine-

months' total follows: Business buildings, \$151,725,200; engineering, \$100,000,000; medical, \$100,630,000; industrial, \$45,586,100.

Featuring the awards during the month was the second portion of the total cost of the highway development project, \$10,000,000. With a similar amount in the previous month, the total construction cost of this August St. Lawrence river hydro-electric project reaches \$20,000,000. Another \$10,000,000 was awarded in August. Contracts were awarded in September for the improvement of the Three Rivers harbor on the St. Lawrence, amounting for \$2,000,000.

SPANISH PENNIES are quoted at \$135.50 off \$101.01, since Friday's close.
